## EDUCATION

### McGill University

Bachelor of Science in Computer Science

Montreal, QC, Canada

Aug. 2023 - present

## EXPERIENCE

### IT and Web Development Intern

June 2022 – July 2022

ARB (Azerbaijan Republic Broadcaster) Media Group

Baku, Azerbaijan

- Assisted the IT team in maintaining and updating the company's website, ensuring optimal performance and user experience.
- Collaborated with web developers on various projects, contributing to the design and implementation of new features for the broadcaster's digital platforms.
- Provided technical support to staff, troubleshooting issues to maintain smooth operation of IT services and infrastructure.
- Participated in the development and deployment of multimedia content, enhancing the accessibility and presentation of broadcast material on online platforms.

### Book Editor (*paid part-time job*)

July 2022 – May 2023

MathYouCan

Baku, Azerbaijan

- Performed comprehensive error checking and solved all mathematical tasks for the AP Calculus BC book, ensuring accuracy and clarity in over 200 pages of content.
- Compiled detailed solutions and explanations for complex calculus problems, enhancing the book's value as a preparation tool for the AP Calculus exam.
- Conducted thorough grammatical and mathematical reviews to guarantee the publication met high standards of educational quality and rigor.
- Collaborated with the author and editorial team to refine educational content, contributing to a user-friendly learning experience for high school students.

## PROJECTS

### ReLease | *Python, "Dash" framework, MongoDB, HTML, CSS, Git*

January 2023

- Developed "ReLease," a website leveraging Python's Dash framework and MongoDB, designed to connect Montreal tenants seeking to transfer their apartment leases, addressing the local housing crisis.
- Implemented a user-friendly interface allowing tenants to post listings, detail lease agreement clauses, and specify desired transfer periods, streamlining the lease transfer process.
- Secured the domain "[www.re-lease.biz](http://www.re-lease.biz)" for future hosting, demonstrating foresight and commitment to providing a dedicated platform for lease transfers in Montreal.
- Conducted extensive market research to identify a gap in services for lease transfers, resulting in a specialized website that meets the specific needs of Montreal residents during a housing shortage.
