EDUCATION

McGill University	**Expected Graduation: 2027**
BSc in Computer Science	*Montreal, QC, Canada*

EXPERIENCE

McGill Ventures (University Club) ↗ — **March 2025 – present**
Front-end Developer — *Montreal, QC, Canada*

- Building a CRM web application help startups manage Customer Relationships, Funding, Growth.
- Developing new front-end features using **Next.js** and **Tailwind CSS** to build a responsive CRM interface that streamlines customer relationship management.
- Collaborating with Back-end Developers and Product Managers to integrate **Spring Boot APIs**, manage **PostgreSQL** data, and implement secure authentication (**JWT/Firebase/Auth0**).

MindVista (Student-run University Club) ↗ — **November 2024 – present**
Full-Stack Developer — *Montreal, QC, Canada*

- Maintaining a new website after transition from WordPress to **Next.js/Payload** stack, eliminating redundant plugins and reducing attack vectors, resulting in a **100% Best Practices score**.
- Fixing any ongoing issues, already closing **50+** of them with **80+ Pull Requests**, working closely with another developer and managing team.
- Constantly enhancing website metrics: improved **SEO score from 54 to 92** and **loading speeds by 67%**, reduced **Largest Contentful Paint from 7.9s to 3.2s**, **Speed Index from 4.9s to 1.6s** and infrastructure **costs by 97.36%**.

ARB (Azerbaijan Republic Broadcaster) ↗ — **June 2023 – August 2023**
IT and Web Development Intern — *Baku, Azerbaijan*

- Supported the development and maintenance of ARB's website and digital platforms, implementing updates and bug fixes to improve performance and enhance the user interface, which resulted in a **15% improvement** in site performance metrics.
- Worked closely with web developers on the implementation of responsive design and new web features, such as interactive video content integration and improved site navigation, boosting user engagement.

PROJECTS

MindVista Website | Next.js, Payload CMS, Tailwind CSS, Vercel, Neon (PostgreSQL), AWS S3
- Developed a modern website for MindVista, optimizing performance, security, and SEO while resolving ongoing issues.

Portfolio Website | React.js, JavaScript, HTML, CSS, GitHub Pages
- Designed and implemented a fully responsive portfolio site with reusable components, lazy loading, and smooth animations for enhanced user experience.

ReLease | Python, "Dash" framework, MongoDB, HTML, CSS
- Built ReLease to connect Montreal tenants for lease transfers, delivering a user-friendly interface and securing a dedicated domain (www.re-lease.biz).
